

**Pardeeville Area School District**  
**Bring Your Own Internet-Ready Device Guidelines**

In our continuing efforts to expand opportunities for student learning through the use of technology, students will be allowed to bring their own Internet-ready devices to school for use within specified classes and/or for identified projects. This allow students to access Internet-based resources with devices such as personal laptops, smart phones, iPads, Chromebooks, etc. This supports the school district's goal of supporting personalized learning for all students. In order to ensure that learning remains the focus, the district has developed the following guidelines.

- Staff are the decision-makers regarding appropriate uses of technology in classes. Use of personal devices unrelated to the assigned learning task is not permitted.
- Students may access the Internet only through the district's wireless public network, which provide filtered Internet access. The school district does not condone the use of other Internet connection methods such as 3G/4G data plans, and is not responsible for any accrued data charges.
- **Students and their families assume responsibility for their device.** The school district is not responsible for the safety, security, loss, theft, damage, or misuse of any personal device.
- Students and their families assume responsibility for the technical support and maintenance of personally owned devices, including troubleshooting and repair costs. Devices must be able to maintain a charge throughout the school day.
- Students and their families assume responsibility for any desired insurance for their personal device.
- All information and guidelines for appropriate use contained in the Student Handbook, Board of Education Policies 5136- Wireless Communication Devices and 5136.01- Electronic Equipment apply to the use of personally-owned devices.
- All relevant state statutes apply to the use of personal devices.
- Sharing of personal devices is not permitted.
- Consequences for misuse of electronic devices can be found within the Student/Parent Handbook.
- A permission slip signed by a parent/guardian indicating acknowledgement of, and agreement to, the Internet-Ready Device Guidelines needs to be received by the school prior to the student using the device in school.

Thank you for your continued support of the Pardeeville Area School District's technology program to support personalized learning.
